Maybe even better than free.

Using file, you can circumvent those limits without paying to upgrade your team chat service. You can upload any type of file (movies, music, documents, images, zip files and more). filehosting provides an easy possibility for you to send large files to your friends. There are no restrictions on the number of times a file can be downloaded. Just upload the file you want to share with your friends and we send you a download link to your file. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Our service is completely free for everyone. Alternatively you can choose to share your download links on blogs, forums and social networking sites. You decide who you want to share your files with.Any file in any format can be uploaded and downloaded for free. We have no file size limit. Why pay storage fees for a file that you just wanted to send to afriend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Keep your files private, or send yourdownload links only to friends or family. You don't need any special software installed to be able to download your files. This is easy, fast and reliablefilehosting! You don't need any kind of premium-accounts. No account or credit card is required to get started. Unfortunately, we can't make that part free. Thecost of that data transfer is covered by your internet service or the data plan on your phone. So try our free and simple filehosting service now. File is free to usewith no gotchas and no hidden fees. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferredbetween your computer or phone and our servers, then from our servers to your friends device. You can give this download link to your file and share the link. Files can be downloaded from any computer from our high speed servers. If only we could, wesurely would! On the other hand, using file can actually save you m
