Maybe even better than free.

So try our free and simple filehosting service now. No account or credit card is required to get started. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. The cost of that data transfer is covered by your internet service or the data plan on your phone. We have no file size limit. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. File is free to use with no gotchas and no hidden fees. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Using file, you can circumvent those limits without paying to upgrade your team chat service. There are no restrictions on the number oftimes a file can be downloaded. Any file in any format can be uploaded and downloaded for free. If only we could, we surely would! On the other hand, usingfile can actually save you money. Just upload the file you want to share with your friends and we send you a download link to your file. filehosting provides aneasy possibility for you to send large files to your friends. Unfortunately, we can't make that part free. Our service is completely free for everyone. Files can be downloaded from any computer from our high speed servers. You can give this download link to your friends by mail or instant messenger. You decide whoyou want to share your files with. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferredbetween your computer or phone and our servers, then from our servers to your friends device. Keep your files private, or send your download links only tofriends or family. It is also allowed to link to the download page from websites and communities. Files transferred the old-fashioned way tend to pile up and beforgotten about, eventually costing you money in data storage fees. Alternatively you can choose to share your download links on blogs, forums and socialnetworking sites. You don't need any special software installed to be able to download your files. You can upload any type of file (movies, music, documents,images, zip files and more). Simply upload your file and share the link.
