Maybe even better than free.

This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. You don't need any special software installed to be able to download your files. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. The cost of that data transfer is covered by your internet service or the data plan on your phone. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Simply upload your file and share the link. Unfortunately, we can't make that part free. It is also allowed to link to the download page from websites and communities. We have no file size limit. Files can be downloaded from any computer from our high speed servers. There are no restrictions on the number of times a file can be downloaded.
