When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Simply upload your file and share the link. filehostingprovides an easy possibility for you to send large files to your friends. You don't need any special software installed to be able to download your files. The costof that data transfer is covered by your internet service or the data plan on your phone. You decide who you want to share your files with. Files can bedownloaded from any computer from our high speed servers. If only we could, we surely would! On the other hand, using file can actually save you money. You can upload any type of file (movies, music, documents, images, zip files and more). We have no file size limit. So try our free and simple filehostingservice now. File is free to use with no gotchas and no hidden fees. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Noaccount or credit card is required to get started. It is also allowed to link to the download page from websites and communities. Why pay storage fees for a filethat you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Keepyour files private, or send your download links only to friends or family. Using file, you can circumvent those limits without paying to upgrade your team chatservice. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer orphone and our servers, then from our servers to your friends device. Our service is completely free for everyone. You can give this download link to yourfriends by mail or instant messenger. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in datastorage fees.

Unfortunately, we can't make that part free. Just upload the file you want to share with your friends and we send you a downloaded. Alternatively youcan
