When you use file, you avoid storing the file you're sending in your cloud storage or mail server. It is also allowed to link to the download page from websites and communities. If only we could, we surely would! On the other hand, using file can actually save you money. You can give this download link to your friends by mail or instant messenger. No account or credit card is required to get started. Alternatively you can choose to share your download links on blogs, forums and social networking sites. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. So try our free and simple filehosting service now. Simply upload your file and share the link. The cost of that data transfer is covered by your internet service or the data plan on your phone. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps.

Unfortunately, we can't make that part free. filehosting provides an easy possibility for you to send large files to your friends. You decide who you want toshare your files with. You can upload any type of file (movies, music, documents, images, zip files and more). We have no file size limit. Keep your filesprivate, or send your download links only to friends or family. File is free to use with no gotchas and no hidden fees. Our service is completely free foreveryone. Just upload the file you want to share with your friends and we send you a download link to your file. Any file in any format can be uploaded anddownloaded for free. Files can be downloaded from any computer from our high speed servers. You don't need any special software installed to be able todownload your files. There are no restrictions on the number of times a file can be downloaded. Your wallet will be none-the-lighter! Just so we're all 100%clear
