Maybe even better than free.

It is also allowed to link to the download page from websites and communities. filehosting provides an easy possibility for you to send large files to yourfriends. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. So try our free andsimple filehosting service now. Using file, you can circumvent those limits without paying to upgrade your team chat service. No account or credit card isrequired to get started. Any file in any format can be uploaded and downloaded for free. We have no file size limit. The cost of that data transfer is covered byyour internet service or the data plan on your phone. Keep your files private, or send your download links only to friends or family. When you use file, youavoid storing the file you're sending in your cloud storage or mail server. File is free to use with no gotchas and no hidden fees. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from ourservers to your friends device. Unfortunately, we can't make that part free. If only we could, we surely would! On the other hand, using file can actually saveyou money. Our service is completely free for everyone. There are no restrictions on the number of times a file can be downloaded. You can upload any type offile (movies, music, documents, images, zip files and more). Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, manyteam chat apps have limits to the size of files that can be transferred within their apps. You don't need any special software installed to be able to download yourfiles. Just upload the file you want to share with your friends and we send you a download link to your file. Files can be downloaded from any computer fromour high speed servers. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Simply upload your file and share the link.You decide who you want to share your files with. Alternatively you can choose to share your download links on blogs, forums and social networking sites.You can give this download link to your friends by mail or instant messenger.
