Updated : Monday 14 June 2021

Maybe even better than free.

We have no file size limit. There are no restrictions on the number of times a file can be downloaded. Any file in any format can be uploaded and downloaded for free. Just upload the file you want to share with your friends and we send you a download link to your file. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. If only we could, we surely would! On the other hand, using file can actually save you money. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between yourcomputer or phone and our servers, then from our servers to your friends device. Files can be downloaded from any computer from our high speed servers.Simply upload your file and share the link. Keep your files private, or send your download links only to friends or family. You can upload any type of file(movies, music, documents, images, zip files and more). You decide who you want to share your files with. You can give this download link to your friends bymail or instant messenger. Our service is completely free for everyone. Why pay storage fees for a file that you just wanted to send to a friend or colleague?Also, many team chat apps have limits to the size of files that can be transferred within their apps. Unfortunately, we can't make that part free. File is free to usewith no gotchas and no hidden fees. Alternatively you can choose to share your download links on blogs, forums and social networking sites. When you usefile, you avoid storing the file you're sending in your cloud storage or mail server. Using file, you can circumvent those limits without paying to upgrade yourteam chat service. The cost of that data transfer is covered by your internet service or the data plan on your phone. It is also allowed to link to the downloadpage from websites and communities. No account or credit card is required to get started. filehosting provides an easy possibility for you to send large files toyour friends. You don't need any special software installed to be able to download your files. This is easy, fast and reliable filehosting! You don't need any kindof premium-accounts. So try our free and simple filehosting service now.
