For over 30 years, we have produced our wiring harnesses right here in America, helping enthusiasts get their street rods, muscle cars, offroad rigs, race cars, and many other rides wired up safely. American Made American Proud American Strong. Thirty years ago, the first Painless wiring harnesses were manufactured in a tiny rollup rental unit on the west side of Fort Worth. As word began to spread about these easy to install chassis harnesses, the legendary Tex Smith got word and, writing a positive review in his Hot Rod Mechanix magazine, ended it by saying, "Folks, this is really painless wiring!" The name caught on and soon Perfect Performance became Painless Wiring. All research and development, engineering and manufacturing is done in house. At Painless, we are and always will be American made, American proud, and American Strong. We wont stop building.
